R. C. Brumpton.

PHONE 106.

LAST WEEK OF SALE.

Do not forget that the Big Boot and Shoe Sale at R. C. Brumpton's closes on Saturday, the 18th, and do not fail to take advantage of the genuine 20 per cent. reduction. 80c. buys One Dollar's worth. All Bright, New Goods, and first-rate value at original prices.

We have also, still, a few sacks of the Red Deer Hungarian Flour at \$2.00 per sack. At a time when the price of Flour is advancing, to offer Good Flour at above price should be a strong inducement to get some, and we shall very much esteem your patronage.

THE BUSY CORNER STORE.

FRESH GROCERIES ALWAYS IN STOCK

Western General Electric Co., Ltd. MOTOR SERVICE.

The time is now come when this Company is prepared to furnish power for all purposes, great and small, by means of Electric Motors. These Motors are so low in cost, occupy so little space; are so easily controlled, and are so exceedingly economical in operation that their use will be practically universal as soon as people understand the matter. There is scarcely a home, or a place of business, in which electric power cannot be used to lighten and cheapen labor. Inquiries solicited.

W. A. MOORE, Managing Director.

Concert.

The concert given on Thursday May 9th by some of the young people of St. Luke's church and their friends was a grand success in every way.

In spite of the inclemency of the weather the Oddfellows hall was taxed to its utmost capacity. The stage had been raised, and was beautifully decorated.

As usual in Red Deer the audience was a little slow in gathering and it was quite 9 o'clock before Mr. C. K. Wright opened the programme with a finely rendered selection on the piano.

Most of the contributors to the evening's enjoyment were in particularly good form. Miss Cowell's rendering of "Sing me to sleep" was excellent, and the audience insisted on an encore for Mr. Hart who sang "Off to Philadelphia" splendidly.

Mr. Galloway's solos on flute and piccolo were quite up to all expectations and Mr. McQueen's cello and violin never sounded better. Indeed Mr. McQueen's solos with Mr. A. H. Barber at the organ were very fine indeed.

It is impossible to say too much in praise of the reciters, Mrs. Moore, Miss Riley and W. C. Cowell and Miss Paterson's dancing was greatly appreciated.

Mr. Bates' encore for his song "Song of the sea" was well deserved, as was also Mr. Gee's encore for his song, "I Love Her" we never heard Mr. Kent sing so well as he did on Thursday. Mr. W. Morris was in perfect form and filled his office of accompanist to perfection. After the concert the young people enjoyed a couple of hours in dancing.

Suicide while de- ranged.

A man named Al. Huttlinger, who came to this country and settled near Burnt Lake a few weeks ago, committed suicide while temporarily insane on Wednesday last by shooting himself in the head with a shot gun. The body was brought to town by Constable Johnson of the R. N. W. M. P., and Coroner Denovan held an inquest at Stone's undertaking parlors, with a jury composed of H. W. Hoskins, chairman, S. G. Cowan, W. Phillips, S. G. Halliday, D. Paterson, and J. B. Lund who decided after hearing the evidence that deceased came to his death by his own hand while in a despondent state of mind.

Those who came in contact with him a few days before his death noticed that he acted strangely and the general opinion, shared by the doctor, was that his mind was unhinged. He had never thoroughly recovered from injuries received from a fall in a well and a severe attack of typhoid fever. He was married a year ago to a young

lady school teacher in Colorado, formerly of New Brunswick and the young wife and expectant mother, is completely prostrated with grief at the horrible termination of her happy wedded life.

He had spoken of suicide previously but had refrained owing, we understand, to the fact that he thought he might bring suspicion on his wife and took advantage of the first opportunity offered when there was company in the house to commit the rash act.

REAL ESTATE MEN OR- GANIZE.

There was a very largely attended meeting of the real estate men of Red Deer at Welliver & Dr. Ke's office on Wednesday evening some twenty five to thirty being present. Mr. Welliver was chosen chairman and Mr. Paterson acted as secretary.

The aim of the meeting was to form an organization among the real estate men for mutual protection and for putting the business on a satisfactory foundation to form a real estate exchange on the lines of those in Winnipeg and other cities. The secretary was instructed to write for particulars of the rules governing such exchanges.

The matter of the proposed real estate license fee was discussed, and the secretary will gather information as to what protection the license gives real estate men in those places where it has been adopted. A deputation was appointed to wait upon the Council with reference to the matter.

Woodmen's Parade.

The members of Camp 243 Woodmen of the World attended divine service in St. Luke's church on Sunday morning May 12th.

The muster was not so large as the officers had expected, nevertheless a goodly number gathered in the Oddfellows' Hall, and from that place marched in procession to the church.

Seats had been reserved for the Woodmen in the front part of the church, while a goodly congregation occupied the remaining seats. The processional hymn "Onward Christian Soldiers" was sung with much vim by the choir and congregation. The service was choral and the tenor solo in the anthem "See Ye the Lord" was exceedingly well rendered by Mr. R. J. Thompson.

The Rev. Canon Hinchliffe preached from I Cor. XVI 13, "Quit you like men, be strong." He urged upon the members of Camp 243 the necessity of displaying strength and courage in the fulfilment of their obligations, and pointed out that true strength like all other good things, could come only from the God and Father of all.

DEATH.

Galbraith.—At Guelph, Ont., on May 3, Mrs. F. W. Galbraith, aged seventy-three years.

Deceased was mother of F. W. Galbraith, of the Red Deer Advocate, and also of Mayor Galbraith of Lethbridge. Mrs. Galbraith who was the daughter of Mr. S. Wright, one of Guelph's earliest pioneers, was born in Guelph, seventy-three years ago and spent her whole life in her native city with the exception of four years in Montreal. Her husband preceded her nearly forty years ago. She was a staunch member of the Methodist church, noted for her good works, and one of the most respected and beloved of Guelph's citizens. We, with many of Red Deer's citizens, extend our sympathy to Mr. Galbraith in his bereavement.

Eckville Notes.

It is reported that in the near future Eckville will be privileged with three mails per week. The increase in the mail bag well warrants this extra swell. A large part of the country between Eckville and the Saskatchewan river has been settled up within the past twelve months and what homestead land remains is being quickly filed on by the many new comers passing through this point. Practically the whole of the mail for the new country is handled at Eckville, thus making the increased facilities for posting and receiving letters and papers very welcome. Local business men and farmers will find it very useful to be able to communicate with town three times a week.

In spite of the backward season this looks like being a good year for crops. The land around here is in splendid condition, in seed and the grain should get an extra good start. A piece of fall wheat near here on Mr. Mitzner's farm is looking in fine shape.

Mr. Kennedy, the Baptist Missionary conducted service in the school house on Sunday evening May 12th at 7 o'clock. He will preach here every alternate Sunday at the same hour. Will local readers please note and turn out in better numbers in the future.

Will Goard shot a fine lynx a few days ago within a few hundred yards of the store.

Sporting Notes.

The opening of the base ball league of Red Deer will take place on May 24th at the exhibition grounds. So far the Wigwam, Waskasoo, Outlaws and Mechanics are the four teams that have entered the league. Every effort is being made by President Welliver to get the grounds in order. The Outlaws have signed a strong aggregation but the Mechanics with Edgington and Northey for battery and Waskasoo, with an imported pitcher, hope to hold their own. P. Cottleham was appointed official scorer for the league. A gate will be placed at the north end of the exhibition grounds and a walk to it which will cut off a large portion of the distance to be travelled, making it very convenient for the citizens.

The world faces a big crop shortage. The United States alone will have a shortage of 100,000,000 bushels of wheat owing to unfavorable weather.

National Steel Ranges

Have been thoroughly tested with Test and Time. They are not a new creation—110 of these Ranges are in use in this district. All customers agree that they are perfect bakers, with small amount of fuel. Moreover, it is surprising the small amount of repairs that these Ranges require, proving that nothing but the best grades of steel are used in their construction.

Have you seen the "Canada." Prices are no higher than many inferior ranges.

WEDNESDAY, MAY 15th, 1907.

RED DEER'S POSSIBILITIES.

No town in the west is progressing as Red Deer is progressing in proportion to population.

We are composed of men who are determined to succeed.

Our council is made up of energetic, alert, up to date citizens, who are striving to be in the van and they work six days and six nights a week to do it.

Our Board of Trade is composed of over eighty members, with power enough behind them to move a mountain.

Our splendid water and sewerage system is unequalled by any town in the west.

Our electric lighting and telephone system is up to date, unsurpassed and the envy of even the large cities.

Our iron works are growing in importance and our extensive brick industries cannot make brick enough to supply orders.

We have splendid streets, fine buildings and large and commodious churches.

We have the best up to date hotel buildings and accommodation for guests between Calgary and Edmonton.

We have magnificent water power and unlimited, absolutely pure water.

We have a creamery, hospital and splendid schools.

All eyes in Alberta are centered on Red Deer.

Nothing can stop the splendid growth of our town.

Watch Red Deer grow.

A Speciman graft.

A libel suit against the Halifax Herald brings to light a specimen of the way in which public opinion is grafted away at Ottawa.

The Dominion government pretended it wanted to buy some land at Halifax and a tip was given to some local Grits to get hold of the property and then sell it to the government at an increased value. The land was bought for \$18,753, and immediately turned over to the Government for \$45,400.

The titles were searched and the deeds drawn up by a Grit lawyer, who charged \$3,564 for the work, and who collected from the government during 1906 the sum of \$10,314 in fees.

Of the \$28,647 profits on the land deal \$14,196 went to B. F. Pearson, who runs newspapers of the Liberal party at Halifax and St. John, the balance going to the local Liberal who conducted the deal or more probably to the Grit corporation fund.

The Halifax Herald was sued for libel for printing all the details of this rotten piece of business and the jury declared by its verdict that the whole story was true. Thus a nefarious piece of business goes on record attested by the decision of the courts.

MALIGNING THE WEST.

The Winnipeg "Commercial" takes exception to the manner in which western news is handled by eastern papers, especially in regard to the matters of extreme winter weather and the recent traffic congestion. Such headlines as the following are given as example: "The unfortunate west," "West facing disaster, situation is desperate," "Chaos in the west," and "Business paralyzed," all of which is intended to show that western Canada is in a state of nervous prostration, and which cannot but have an effect adverse to the best interests of the big provinces. It is unfortunate that the readers of these papers seem to demand to have their news trumpeted with exaggerating headlines, especially when it is a recital of a series of misfortunes that become exaggerated and multiplied even to the point of leaving the hands of the re-

porters domiciled at western points. The Toronto papers are branded as the most guilty ones, and are warned to bear in mind the tendency such news has to travel in those countries that are sending their capital and labor to us. We all remember those fairy tales that appeared last winter almost daily in the yellow press of the United States about whole towns in the Canadian west being completely enveloped in snow and the inhabitants living like rabbits in burrows under a huge canopy of it. They were, of course, too absurd for a moment's consideration, but such pictures admit of a great deal of discounting, and are very unattractive to the prospective newcomer. There is no doubt, a "Commercial" says, that the western part of Canada is the most prosperous part. It is the base upon which a great proportion of eastern industrial works are built and so long as the wheat areas are cultivated and the mineral resources developed, eastern Canada will not be wanting in reflected activity in most lines of trade and commerce.

The Strathcona Chronicle comes out as a daily paper now, the first number appearing on Tuesday last week.

Oil has been discovered twenty miles north-west of Edmonton. The Standard Oil Company will have to get busy again.

There appears to be a general demand for the abolition of bucket shops, and in the west they are at the end of their existence, which is good news for the general public.

The Edmonton Bulletin says there is a butter famine in that city and butter is being imported from Ontario at a cost of about nine cents a pound for express alone to supply the demand. And this is a dairy country.

D. McGillivuddy, editor of the News, Calgary, the new daily recently started, is rather proud of having been a country editor. He says it was on a country paper he learned to trim city jays and to estimate puppets at their true value. Shale, Dan, old boys, you're the stuff, as grandpa said when he emptied the mug of beer. We'll stand at your back till your "vestcoat" explodes.

"This province of Alberta," said Lieutenant Governor Bullock, in an interview recently, "will yet be the banner province of the Dominion. We have the people, the land, the minerals, the grain-growing propensities and other attributes which give us immense natural advantages over our other provincial competitors."

The Jewish Sabbath, as an observance binding on Christians, is clearly repudiated by St. Paul. The Day of Rest, as the relief of weary humanity, remains as sacred and as blessed as ever; and our gratitude is due to those who seek jealously to guard it. But attachment to it is imperilled by any attempt to identify it with the Jewish Sabbath and to enforce its observance with the rigor of the law. Let labor be as far as is possible with our complex civilization, and rest for the weary, be secured. There is nothing either in the Fourth Commandment or in a reasonable view of the question, to forbid recreation, provided, of course, that the recreation is innocent in itself, and that it does not disturb the religious services or offend the feelings of those who wish to give the day entirely to devotion. Such of us as have other days for recreation can hardly be fair judges of this question. The Seventh Day is the blessed privilege of those for whom the six are toil.

GAETZ AVE. SOUTH.

Town Council,

The regular meeting of the Town Council was held on Thursday night Councillor Stephenson, in the absence of the mayor who was poorly, in the chair.

J. E. Bower and Staples Co. asked for some concession regarding fire limit regulations owing to building being arranged for before by-law was passed. Fire and Light.

Bawinheimer & Co. asked to have the town rubbish removed from the South east quarter of 20, across the river. Board of Health.

The acting Deputy Minister of Public Works for Alberta wrote enclosing copy of amendment to the Land Titles Act, governing the sub-division of property in town and outside the limits.

FIRE WATER & LIGHTS

Councillor Botterill, chairman, reported, recommending: 1. That an expenditure of \$15,000 be made for the purpose of installing a new pump in the pumping station and the extension of wooden mains from the corner of Alexander St., to the Piper brick yards and also on the length of Victoria Avenue, also a main extended from Nanton St. to Parkvale to be distributed as necessary.

2. That tenders be called for at once for the pump.

3. That stand pipes be erected from which to fill the sprinkler.

4. That a lawn rate be established at \$10 for the lawn season and people so taking to use what water they required, and that bylaw be amended accordingly.

After some discussion the first clause was referred back to the committee for further consideration, and the balance of the report was passed.

MARKETS.

Councillor Tallman, chairman, reported, recommending that the market be established on the southwest corner of McKenzies and Mann sts., as per plan and estimates attached to this report, and that the weigh scales be erected on the town block at the end of the proposed shed. The cost of the sheds would be about \$30.

On the location of the market, Councillors Stephenson, Botterill and Pidgeon objected to the Committee placing the market on the south-west corner instead of on the eastern side of the square as had been originally intended. The part the committee had chosen was the part designed for the city hall to be erected in three or four years. They could not expect the Dominion Government to fix up their plot if the town placed the market next to

them. If the scales and sheds were placed there, they would have to be removed in two or three years.

The committee argued that to place it on Ross Ave., on the east side would place the market too far down, and it would not be so desirable a building on their main street, Ross Ave. The market by-law could be amended, even though the lots on the east side were fixed in that by-law as the location of the market.

The report was thrown out on a tie vote—Councillors Tallman, McKee and Gaetz supporting it with Councillors Stephenson, Botterill and Pidgeon against.

PUBLIC WORKS

Councillor McKee, chairman, reported, presenting the following petitions for new work for the current year:

1. Gravel down two small hills on the east end of Park St.
2. Six foot side walks on south side of Douglas street from McKenzie to Nanton.
3. Grading Nanton from Stearns to Douglas and lay side walk on east side of same.
4. Sidewalk on east end of Douglas completed.
5. Grading Holt ave. Alexander to Munson.
6. Continuing sidewalk on Park from Rev. Dr. Gaetz's to East ave.
7. Grading Blowers street from McKenzie to Nanton.
8. Six foot sidewalk from Gaetz to Nanton on Mann, and removing the four foot sidewalk now there to easterly end of Mann.
9. Sidewalk from Nanton east on Mann street to town limits, and south on Parkvale avenue four blocks.
10. Sidewalks on south side of Ross from McKenzie to Nanton.
11. Grading Holt avenue from Alexander to Munson.
12. Grading Kingmill avenue from Mann to Munson. Received.

PROPERTY AND PARKS.

Councillor Pidgeon chairman, reported recommending:

1. That Councillor Tallman make a recommendation to the Commissioners as to the various kinds of heating apparatus offered by Ilsey Bros. and Houston and Cope for the heating of the fire hall and council chamber.
2. That some flower seeds be planted in the beds in the park, and to keep the premises well watered and the grass clipped when necessary.

That the Council apply to the townsite owners for the following piece of land for a public park for the municipality, viz., the whole of L. S. 4, and the south

east quarter of L. S. three and make them an offer of \$8000 for the same, this amount to be subject to the ratification of the rate payers. Adopted.

The License and Police committee were directed to look into the question of license by-law for real estate men.

A by-law indemnifying the C.P.R. in case of any damage through running the sewer under their track on Douglas street to connect with the creamery, was passed.

Councillor Pidgeon said the C.P.R. tracks on Munson street had been reduced to two and the stock yard siding would be shortened.

Councillor Botterill complained that the hospital was still closed. Councillor McKee said it was due to delay in heating appliances and he hoped everything would be ready shortly.

The fire hall contractors were directed to be paid in full for extras over contract, less \$100 retained for some small work, and to have their deposit returned. Council adjourned.

Directors Meeting

The directors of the Red Deer Exhibition Association met in the Secretary's office Wednesday last to arrange for the prize list, dealing with the race meet, appointing committees for the Fair 22nd and 23rd July and other business.

About \$2500 will be given in prizes this year and the prize list is already in the hands of the printer.

The following committees were appointed to deal with the live stock: Horses—Welliver, Botterill and Pidgeon. Cattle—G. W. Smith and Sharman. Sheep and Swine—Jamieson and Bower. Horticulture—Galbraith and the secretary.

Considerable discussion took place with regard to the race meet in Red Deer on the 13th and 14th of June. The sports committee, Messrs. Welliver, Botterill and Pidgeon favored the races being conducted under exhibition authority, the other members felt inclined to oppose such an idea unless the stockholders of the Association were consulted. Eventually it was decided to call a meeting for Friday afternoon May 17th at 2:30 o'clock to decide as to whether the Association shall undertake the management of the proposed race meet advertised to be held in Red Deer in June, and upon what conditions.

The grounds committee reported plans from Mr. McFee for levelling the half mile track and grounds in centre of park.

REPORT OF TRIMBLE CREAMERY CO.

The year closing with April 30th, for the Trimble Creamery Co., has been the most successful year in its history.

Amt. butter made during summer months of 1906, 96,324 lbs. Number of patrons, 120. Average price paid, 17 3/4 c. This was an increase of 22,000 lbs. over the previous summer season.

Amt. butter made during winter season of 1906-07 22,418 lbs. Average price paid 24 1/2 cts. Owing to the very severe winter the out-put for the season just closed is considered exceptionally good. The price paid the patrons is the highest that has ever been paid in this district.

On account of the ever increasing demand for the Trimble Creamery butter, the company have thought it wise to increase the out-put. To accomplish this they have recently purchased the Pine Lake Creamery. This plant will be under the management of Mr. C. A. Trimble late of the Iowa State dairy College, and the outlook for the coming season is indeed very bright. Over 760 cows have already been promised and the first week's milk starting April 15th amounted to about 500 lbs.

Both creameries are installing the Babcock testers on the 1st of June. This method of testing the cream is used exclusively in Ontario and throughout the States and has been proven beyond a doubt to be superior in every way to the Oil test method that is in use all over Alberta at the present time.

Markets.

Prime Beef, live weight, 3 1/2 c. dressed 6 cents.
Pork, live weight, 6 1/4 cts., dressed, 8 cents.
Veal, 9 cents per pound.

We pay Cash for them.

THE BEEF COMMISSION.

The Beef Commission has finally taken shape. A preliminary meeting to arrange details was held at Medicine Hat on the 13th of May.

Of the four Provinces which first signified their intention to investigate this question, only two are standing by their convictions, namely Manitoba and Alberta.

Sittings of the Commission will be held at various places throughout the two provinces, to hear evidence from the producer, the dealer, the transporter and the consumer, and any other from whom information may be derived.

In the choice of places for these sittings the object will be to distribute them as well as possible, so as to cover the whole of the interested territory and give the Commissioners an opportunity to hear evidence from every district affected. It is probable that the following places in Alberta will be chosen: Medicine Hat, Lethbridge, Macleod, Pincher Creek, High River, Calgary, Innisfail, Lacombe, Edmonton and Vermilion. If there are other places which feel that their districts should be favored with a sitting it would be well for them to inform the Minister of Agriculture, Edmonton, and the request will be considered.

WE ARE THE HOPE OF THE EAST.

The Montreal Witness realizes the possibilities of the west and says, the west is the hope of the east, and while we may complain that most of the immigrants pass through Quebec and Ontario, it must be admitted that they are only going to that part of Canada which proves the magnet to them when in their own country. The wheat belt is the one spot upon which the eyes of the European are fixed. He can see neither the industrial nor the agricultural possibilities of eastern Canada; neither can he appreciate that Canada beyond the wheat areas is a country of wonderful resources of forests, minerals, and fisheries. But although he speeds towards his goal, probably Winnipeg or Edmonton, without a glance, other than curiosity, at our eastern provinces, he is just as much a factor in the future of eastern Canada as he is in that of the district he later adopts as his home. He develops, produces, consumes; and is an asset worth his weight in gold to the country at large and to every individual section of the vast area of the Dominion, north, south, east and west. It is, therefore, not politic to damn, commercially, with scare headlines, that part of Canada that is standing as a monument to the millions of congested Europe. That we would like to deviate the stream of immigration now pouring into the United States is only natural but to secure it, it will be necessary to deal fairly with such difficulties as those of recent months (which after all, were duplicated in many parts of the United States) and picture the future attractive, as it really is the climate will do the rest when the immigrants are finally settled.

BLAIRMORE CASE IS UP AGAIN.

MacLeod, May 9th.—The Blairmore townsite is up again for investigation but this time under different hands of the law.

Felix Montiberti is now resting in the MacLeod jail charged with the crime of perjury for statements made under oath in connection with the Blairmore townsite proceedings. Montiberti the Italian section hand, who transferred the townsite to Malcolm McKenzie, M.L.A., arrived in Blairmore a short time ago, and Lyons and the other claimant has been in Edmonton for about two weeks attending to the anticipated action. Montiberti was arrested, it is said in accordance with the instructions of the attorney general on the above charge. The public are much interested in this case as all the parties are well known. The case will be heard in the preliminary stages in the course of a day or two.

Moran & Company, Limited, Toronto have been awarded the contract of supplying readers to the public schools of the new provinces of Alberta and Saskatchewan. Four other firms competed, W. J. Gage & Co., the Copp, Clark Co., the Canada Publishing Co., and the McMillan Co. of Toronto. There will be five books, the primer, first, second, third and fourth readers. The two provinces combined and decided to select the same set of books for both public and high schools. Teachers were put in for all other books used, such as geographies, grammars, arithmetics, and science and language text books, but the choice has not yet been made.

Celebration at Blackfalds.

Blackfalds will hold a grand celebration on Victoria Day May 24. Sports will commence at 10 a.m. with a baseball match. A football match will take place at 1:30; baseball at 2:30; football at 4:30. Following are the athletic events: Standing long jump, standing hop, step and jump, running hop step and jump, standing high jump, running high jump, vaulting with pole, putting the shot, men's 100 yds. race, girls' 50 yards race, ladies 50 yds. race, mens' 3 legged race boys' 3 legged race, (under 12). A good programme of horse races in the evening. Good prizes in all events.

Pine Lake.

At the Easter Vestry meeting the following resolution was passed: Concerning burials at Pine Lake:

"That the charge for graves at present in the church yard be \$1.00 and for future the charge be \$5.00 for each plot (8 by 8) or free burial in the N.E. corner of the Church yard."

The Easter Vestry meeting was held at Holy Trinity church on Sunday, April 23th, W. R. Charley and J. A. Pope were re-elected wardens. The Vestry is composed of H. Raikes, R. Page, A. Pardoe, H. Alford, S. Wyndham, C. E. Wright, G. Bain, A. Page, H. M. Field, C. E. Attar and R. Milligan were appointed auditors. The year's accounts were read and passed.

BORDEN TOURS CANADA.

The Federal Conservative convention is off, instead, Borden will make a tour of the Dominion from the Atlantic to the Pacific, taking in every constituency in the Dominion. Borden denies the Winnipeg report that Roblin has been given the organization of the western provinces on the promise that he gets a cabinet position. He will welcome all the aid that Roblin can give him, but there is no compact between them.

RAILWAY COMPANIES LIABLE.

An important decision was handed down by the full Court at Regina recently to the effect that if the engine's start prairie fires the railway must pay. The judgement was concurred in by Chief Justice Sifton, Mr. Justice Prud'homme, and Mr. Justice Newlands.

Ian MacLaren Dead.

Burlington, Iowa, May 9.—Dr. Watson (Ian MacLaren) died here today. He came to Mount Pleasant on April 23rd, from Minneapolis to deliver a lecture to the students of Iowa Wesleyan University. En route he became ill and was compelled to cancel the date for the lecture. The illness which was declared to be tonsillitis, progressed favorably. Complications, however, set in, blood poisoning, abscesses and rheumatism. The end came unexpected and was hastened by a weak heart. His best known work was "Beside the Bonnie Briar Bush."

For Sale.

Nervous Prostration

IT IS WORRY THAT KILLS, NOT WORK

Work without worry usually tends to prolong life. On the other hand, worry, with or without work, is fatal, because it uses up what the Doctors call the "Leichin," a phosphorized fat which is the chief constituent of the brain and nervous system—a waste which, if not stayed in time, means complete nervous wreck. The evident moral is: "don't worry"—advice easy to give, and in these days of stress and strain practically impossible to take. The alternative is: find some way of replacing the wasted Leichin—the phosphorized fat. This absolutely essential element will be found in its most perfect, palatable and assimilable form in

FERROL

an emulsion of Cod Liver Oil and Phosphorus (phosphorized fat) together with iron, the recognized blood builder—making FERROL the ideal nutrient it claims to be. For the prevention or treatment of nervous prostration FERROL is absolutely unequalled—it is safe, sure and speedy.

The formula of FERROL is freely exposed, consequently

"Horsehair."
 The raw horsehair used in the man-
 ufacture of haircloth for upholstering

country because of the situation which during and since the Russo-Japanese war has prevailed in Russia, hence most of the hair comes from the East. At the present time there is a certain kind of weave, which depends upon the length of the hairs, and in this respect the Russian hairs are superior, being tails which sweep the ground, each of the weaving is done in this manner. For the narrow weave of the cloth used by sailors in Italy, the hair from American sources, the hair from French sources, the western, plips is used.

If your children are troubled with me, give them Mother's Graves' Cream Extremator; safe, sure and natural. Try it, and mark the improvement in your child.

 All these diseases are serious in themselves, and if not promptly cured in the early stages are the certain forerunners of consumption in its most terrible forms. Medicine conquers and cures Consumption, but it is much easier and safer to prevent its development by using Payson's. Here is a sample of thousands of untary and unsolicited statements from all over Canada:

men,—I feel it my duty to advise you a remarkable cure effected by your Psychine Oxomulgen, which have come under my personal observation. Three men, well known to Albert Townsend, Hassel Hipson and John Jay, all of Shelbyville County, were cured by the good use of your medicine, and to be incurable and beyond the aid of medical aid. They used Psychine and Oxomulgen and they are now in good health. I feel it a duty I owe to suffering humanity to these facts for the benefit of other sufferers in this terrible disease.
